

SUPSI

# AI Camp for teachers

We will gather on the shore of beautiful lake Locarno for an immersive and hands-on experience devoted to different aspects of the use of AI in and for teaching. The informal setting of a “summer camp” will foster personal exchange and networking opportunities among secondary school teachers from all over Switzerland.

**13. – 15. July 2026, Centro Sportivo Tenero (CST)**

## AI Camp 2026

The event will alternate lecture-style presentations with extensive workshop-type phases devoted to personal experiments with didactical tools, as well as with time for free personal discussions.

The topics will include an introduction to AI literacy in education as well as examples of relevant didactic activities for secondary schools, with a particular focus on the development of new AI literacy activities and on game-based learning.

Language: The lectures will be held in English, direct communication with the lecturers and among the participants will be possible in Italian, German and French as well.

The AI Camp 2026 is organized by SUPSI and funded by the [Swiss National Science Foundation](#) through an *Agorà* grant.

## Accommodation

Board and room are free of charge for all participants. The number of participants is limited. Admittance will be decided on a first-come-first-serve basis.

Accommodation will be in hotel-style double rooms with ensuite bathroom at the [Centro Sportivo in Tenero \[Dono nazionale svizzero\]](#), which is accessible by a short walk from Tenero train station. Parking is also available.

Single room accommodations are possible subject to availability with an additional charge of 50.– per night. Should any participants prefer to arrange their own accommodation, they may do so at their own expense. However, we will require that all participants attend in full the day's activities.

## Program

- Monday 13.7 13:30 – 17:00: introduction to AI literacy in teaching
